GDYNIA-GDANSK TURNOVER FOR MAY -- Rzeczpospolita, No 155, 8 Jun 49

The total goods turnover for May in the ports of Gdynia and Gdansk amounted to 1,131,000 tons. This is an increase of 140,000 tons over April, of which 103,000 represent imports, and 37,000 exports.

In May, total imports amounted to 237,000 tons. This included 158,000 tons of iron ore for Poland and Czechoslovakia.

TRANSHIPMENTS THROUGH SZCZECIN -- Rzeczpospolita, No 155, 8 Jun 49

Transshipments of miscellaneous freight through the port of Szczecin are steadily increasing. In the first quarter of this year the plan was completed 147 percent.

The newly constructed warehouses will enable Szczecin to handle the greater part of the miscellaneous freight not only for Polish industry but also for Czechoslovakia, Hungary, and other countries in southeastern Europe.

The commodity turnover in Szczecin in the second 10 days of May 1949 amounted to 113,600 tons, of which 86,000 tons were coal, coke, and bunker coal, 8,000 tons miscellaneous freight, and 19,000 tons other bulk freight.

ODRA FREIGHT TRAFFIC -- Rzeczpospolita, No 151, 3 Jun 49

In May, freight traffic on the Odra was very active. Vessels filled to capacity carried 81,000 tons of various goods as against the planned 74,000 tons. The traffic was especially heavy in the second half of May. Because of increasing traffic on the Odra, the river fleet is gradually being reinforced with ships from the Wisla River and new tugs built in Holland.
